### Job Placement Rates (includes data for the two calendar years prior to reporting)

Calendar Year	Number of Students Who Began Program	Number of Graduates	Graduates Available for Employment	Graduates Employed in the Field	Placement Rate (% of Survey Respondents) Employed in Field	Placement Rate (% of Total Graduates) Employed in Field
2016*	107	95	95	78 of 78 responding	100% (78/78)	82.10% (78/95)
2017*	114	106	106	47 of 50 responding	94% (47/50)	44.34% (47/106)

\*78 of the 95 graduates from 2016 and 50 of the 106 graduates from 2017 responded to the survey. All 78 of the responding graduates from 2016, and 47 of the 50 responding graduates from 2017 were reported as "Graduates Employed in the Field." (The remaining 3 responding graduates from 2017 reported that they had received but not yet accepted offers of employment at the time the survey was administered.) The Placement Rate % is reported in two separate columns. The "Placement Rate (% of Survey Respondents) Employed in Field" column calculates the percentage based on the total number of survey respondents and excludes those who elected not to respond to the survey. The "Placement Rate (% of Total Graduates) Employed in Field" column calculates the percentage based on the total number of students available for employment, which includes those who elected to not respond to the survey. We believe that the graduates who elected not to respond to the survey experienced a placement rate similar to that of the graduates who responded to the survey,

A list of the employment positions determined to be in the field for which a student received education and training can be obtained from the institution.
